

**Course description for the
FAME Master Program 2008/2009**

-
Aveiro University

Course description (Semester 3)	30 ECTS*
*ECTS: European Credit Transfer System	
Compulsory Courses	24 ECTS
- Project/thesis	12 ECTS
- Nanochemistry	6 ECTS
- Advanced characterization methods	6 ECTS
Elective courses (1 module to choose out of 2)	6 ECTS
- Colloids, Surfaces and Interfaces	6 ECTS
- Physical Properties of Materials	6 ECTS

Parallel to the classes, students will carry out project work.

Each student will have a specific project supervisor depending on his/her research interests.

The project work corresponds to 12 ECTS credits, i.e. approximately two days/week.

For students registered at the University of Aveiro the project work will be part of the Master thesis.
